1. Homepage

The homepage is the first impression of your site, so it should be attractive and user-friendly.

What to include:

- **Header:** Logo, navigation bar (links to Home, Products, About Us, Contact, etc.), and search bar.
- **Hero Section:** A banner showcasing current sales, discounts, or featured products.
- **Categories Section:** Display popular product categories (e.g., electronics, clothing, books).
- **Featured Products:** Highlight bestsellers or new arrivals.
- **Footer:** Links to privacy policy, terms of service, social media handles, and contact info.

2. Product Listing Page

This page lists all products in a category or a search result. What to include:

- **Filters: Options to sort by price, popularity, ratings, or category.**
- **Search Bar: To allow users to find products easily.**
- **Product Cards:**
  - Image of the product.
  - Name, price, and ratings.
  - "Add to Cart" button.

3. Product Details Page

This page shows detailed information about a single product.

What to include:

- Product Image Gallery: Multiple images from different angles.
- Description: Detailed product description.
- Specifications: Size, color, features, materials, etc.
- Price and Discount: Display the price with any discounts clearly.
- Add to Cart Button: Allow users to add the product to their cart.
- Customer Reviews: Section for user reviews and ratings.

4. Shopping Cart Page

Allows users to review items before proceeding to checkout.

What to include:

- List of items added to the cart.
- Quantity selector for each item.
- Total price calculation.
- "Proceed to Checkout" button.

5. Checkout Page

Where users finalize their purchase.

What to include:

- Billing Information: Name, address, phone number, email.
- Payment Methods: Options like credit card, PayPal, or mock payments for the project.
- Order Summary: Items in the cart, total price, and shipping fee.
- Place Order Button.

6. User Account Page (Optional for the MVP)

A page for users to manage their account details.

What to include:

- User profile (name, email, address).
- Order history.

7. About Us Page

Provide information about your team or company.

What to include:

- A brief description of your team/project.
- Mission statement or goals.

8. Contact Us Page

Make it easy for users to reach out.

What to include:

- A form with fields for name, email, subject, and message.
- Email address or phone number for support.

Optional/Advanced Pages (for Extra Credit)

- Wishlist Page: Allow users to save items for later.
- Search Results Page: Display results for user queries.
- FAQ Page: Answer common questions about orders, returns, or payments.

Navigation Flow

1. **From Homepage:**
   - **Navigate to Product Listing, About Us, or Contact Us.**
   - **Use the search bar to look for products.**
2. **From Product Listing:**
   - **Click on a product to view details.**
   - **Add products to the cart.**
3. **From Cart:**
   - **Proceed to checkout.**
4. **From Checkout:**
   - **Complete the order.**

Visual Design Suggestions

- Keep the layout simple and clean.
- Use a consistent color scheme and typography.
- Prioritize mobile responsiveness.
- Use placeholder content (e.g., sample product images) for initial development.
